ALBANT, April 9, 1864. OVEROROWDING CITY CALL

The Assembly Committee on Railroads reported this orning adversely to the bill to prevent the overcrowd ing of city cars. A large number of potitions have been sent here from New York praying for the passage of a ill prohibiting the city cars from carrying any more bassengers than they furnish seats for. The adverse re port was agreed to at the time of its being handed in out an hour afterwards Mr. Brandreth moved to recon aider the vote agreeing with the adverse report, and that be disagreed with. The year and nays were called, and the vote reconsidered, and the bill sent to the Con mittee of the Whole.

The same committee reported the Senate bill increas ing the capital stock of the Erie Railroad, for the purse of completing its double track, in precisely the same form that it passed the Senate.

THE NEW YORK PARK. The Committee on Cities reported complete this orning the bill directing the Commissioners of the stone stairway as an entrance to the Park, for the use of strians, at Fifth avenue and Eighty sixth street.

pedestrians, at Fifth avenue and Eighty sixth street. The bill was ordered to a third reading. The same committee reported favorably the bill to open and improve Goventh avenue from the north end of the Park to Harlem. Police and amending the salary of the Metropolitan police, and amending the law in a few instances, was also reported complete. A few amendments were made in the committee. The most important one is that compelling the Police Commissioners to report to the Comproller the amount of fines levied and collected of policemen or amount of salaries retained fer fines. The bill is now ordered to a third reading, and will be read early in the work.

The Committee on Banks this morning reported complete the bull incorporating the Seventh Ward Savings
Bank for the city of New York; also the bill to incorpozete the New York Quarantine and Indemnity Company,
both of which were ordered to a third reading.
The Dommittee on Frinzing reported in favor of printing
the number of copies required by the rules of the

guiar over known in the Legislature, and in direct and explicit violation of all rules of legislative and parliamentary proceedings.

At a later hour of the session the question was called tip, and a spiley debate arcse, in which several members participated. High words and strong words were used on all sides. The question then before the House was in regard to the name of Mr. White, who wished his name taken from the report. All memors of motions were made for regard to how this should be done. The debate, however, took a wide range, and went over the whole field on this question, bringing up the question of loyalty of the committee and even trying to read them out of the republican party, discussing the doctrine held by Jeff. Davis and all other points of that kind that could be draged in, the real object being to smother the report, it was debated up to the hour of adjournment with great bitterness, and no vote taken. It has reached a point when it is not at all improbable that the House will condorse the majority report of the committee. It sannot be simpthered now. There is a strong indication that we are on the eve of another just such contest as we dad in 1837, when the light was commenced on the Sub-Troasury by the banks. The bubble of inflation and wild speculation must soon collapse, when and where it will commence it is impossible to tell now. The House refused to take up the bill reported by the minority of the committee.

THE ALMANY BRIDGE MILL

Was read the third time and passed in the Senate this
morelag, only one vote in the negative. The question
abov comes up in the Assembly, where there is a fair
Orospect of an exciting time over it.

THE SOLDIER'S VOTING BILL

Was considered in Committee of the Whole, and progressed, and the amendments and substitute bill ordered
to be printed and made the special order the first of the

There is a strong indication that the Senate will disa-ree with the report of the majority of the committee is the Brandway Underground Railroad. Some of the lonators have taken an active part in the Senate in favor of disagreeing with the report on the Underground Railroad, and the bill compelling the present mailroads to pay ten per cent gross receipts mate the city treasury. These Senators are sanguine that the Senate will disagree with the report on both of these bills, and refer them to the Committee of the Whole.

NEW YORK COURT HOUSE.

The bill to increase the Court House stock of New York eight hundred thousand dollars came up for a claimed reading in the Senate. A motion was made for recommit, with instructions to insert a clause providing that none of the funds raised under the provisions of the bill shall be expended for any purpose but the payment of the bills under the present contract, and that no change to the contract shall be made without an appeal of the architect. This was carried, and the bill, towards the close of the session, was reported back, read the third time and passed, Senator Cozans alone boiding out against it. In this connection the following points in the letter which was read from the architect will be of interest, and put at rest some of the clamor Over this adiatr:—

The Mayor has taken a very unwise course in not hearing both sides before taking the course that he has. Mr. Wilson G. Hunt advised the Mayor to see me and hear what I had to say, a see that, in cration to the bids. Mr. Wm. A. See that the said to message the say of the said to message the said that I knew it was. He replied, "You bad better write the specifications and get the plans ready." I replied that the specifications and get the plans ready." I replied that the specifications of Hunt was Commissioner, and that they had been made with great care and approved by Mr. Hunt. Well, he said he would take them and look them over. After looking them over the told me to get three or four estimates from good men, upon whom I could rely to carry the job through, and do first class work. I saked him if he had any preference, and he said no, and would leave the matter to me, as I knew all about these men better than ha; only get three or four estimates from good men. bers of the Legislature, who recently visited New York, on a pleasure excursion and four of inspection, has been handsomely acknowledged by the committee on behalf of the excursions. A high compliment is paid to Mr. Carpenter, in the energy displayed by that officer is suppressing the Joly rist.

Mr. Carpenter, in his reply, while acknowledging the high honor paid him in the communication referred to, takes occasion to notice favorably the services rendered by the members of the force under his command, as well as the distinguished services of President Acton, who directed all their movements, in the absence of Mr. Kennedy, who was severely injured on the first day of the outbreak. Impectors Dilks and Leonard are especially referred to by Mr. Carpenter for their galant and fear-less conduct on that memorable occasion.
